GENERAL INFORMATION

This index lists all currently available publications for Woodward Diesel Systems products formerly sold from our Cheltenham, UK, plant. Before becoming part of Woodward, this facility was known as Lucas Bryce and Delphi Bryce.

The “public” and “restricted” distribution publications were formerly distributed via CD-ROM. Now, the latest version of each publication is available via the Woodward website (www.woodward.com). “Limited” distribution publications were never available via CD-ROM.

- **“Public”**—Publications listed as “Public” distribution are available to anyone via the website at www.woodward.com/publications. “Public” publications are also available via Woodward e-Business.
- **“Restricted”**—Publications listed as “Restricted” distribution contain sensitive or proprietary information and are available via Woodward e-Business on www.woodward.com. Most former Cheltenham publications fall in the restricted category.
- **“Limited”**—Publications listed as “Limited” distribution contain more sensitive or single-customer-specific information. These are not available via the website, and you will need to contact your Woodward representative.

Note that the old Bryce Product Data Sheets are out of date and no longer available.

For a complete listing of all Woodward customer publications, see indexes:

- **26300V1**, Non-Restricted Publications Index
- **26300V2**, Restricted Publications Index
